

PART TWO - ASSISTED LIVING FACILITIES

Part two lists licensed assisted living facilities in Cook, DuPage, Kane, Lake, McHenry, and Will counties. The assisted living model of living provides more attention to residents individual needs. It is based on a social model of care which calls for care to be provided in a home-like atmosphere based on the residents individual needs. However, the level of care provided at these facilities is less than the level of care at supportive living facilities and nursing homes. The laws that cover facility operators are also less restrictive, and as a result certain statutory protections that are available to residents of nursing homes and supportive living facilities are not available to residents of assisted care facilities. In addition, the Medicaid program will generally provide no benefits or a lower level of benefits to assisted living facility residents than it would to residents of supportive living facilities or nursing homes.
